Inland Rail

Enhancing the North East Rail line to allow for double-stacked freight train clearance

ACTIONS FROM LAST MEETING

NO. ACTIONS (MEETING 3)

- 1 Expected noise levels of double-stacked freight trains, compared to single-stacked
- 2 Clarify commitment on impacts to local community
- 3 Advise timings for urban design contract award and if brief will be made public
- 4 Provide link for Township Strategy
- 5 Identify external funding sources

NOISE

Field work and monitoring surveys were undertaken in January 2019 with the intent of investigating the influence of single and double stacked containers (axle-loads) on noise and vibration emissions.

The assessments found the difference is insignificant (less than 2 db).

This is consistent with guidance from ISO 3095:2013 *Acoustics – Railway application – Measurement of noise emitted by railbound vehicles*.

POTENTIAL FUNDING SOURCES

Commonwealth Grants: <https://www.grants.gov.au/>.

Regional Development Australia <https://www.rda.gov.au/>

Victorian Government: <https://www.vic.gov.au/grants>.

ADOPTION OF MINUTES

- Will include attendance, apologies, declarations of interest; and a record of topics discussed and assigned actions.
- Be reviewed and approved for circulation to members by ARTC and the Chair.
- **Be circulated to all members for review and to confirm accuracy. Any request for major changes to the minutes must be sent in writing to ARTC and forward to the Chair, to be tabled for agreement at the next Working Group meeting.**
- Be published on the ARTC website once approved. Any confidential information will be redacted from the minutes published on the ARTC website.
