# Environment Report

## Appendices

Inland Rail - Beveridge to Albury

# Appendix D

Biodiversity values by  
project area

## Appendix D Biodiversity values by project area

This appendix provides a site by site summary of the existing conditions and impacts for all sites. For information about proposed works at each site, please see Chapter 2.0, and for details of broader mitigation measures proposed for the Project, please see Chapter 7.0. Note that mitigation measures on a site by site basis cannot be determined until the detailed design phase when construction methodology and specific site works are known.

### Enhancement sites, Track Slews and Signal Gantries

Site	Existing Conditions*				Impacts
